DATA DANCE

GROUNDS DECISION MAKING

The purpose of this workgroup is to **collect, assess and share relevant data from various existing sources.** The focus is on the state and trends of risk and protective factors for youth in Ouray County. The data is collected and shared with the other workgroups to help them make data driven decisions. Typically, the data focus is on middle and high school youth.

CONNECTIONS

PROMOTES PYD APPROACH

The purpose of this workgroup is to **develop a feedback and support system** to strengthen relationships, build capacity and increase effectiveness of our efforts. This can be done through 1:1 check ins, coordinating or promoting training opportunities, and most importantly listening to where youth and those serving youth are struggling or feeling stuck.

RECOGNITION

COORDINATES OPPORTUNITIES

The purpose of this workgroup is to **identify, develop, or strengthen opportunities for recognition, prosocial involvement, leadership, skill building and rites of passage for youth.** This is a way to enrich the existing opportunities, fill in the gaps if the need arises, and to bring more awareness to the coalition regarding what is already happening. This can range from events to programs to internships.

VOLUNTEERING

SUPPORTS OPPORTUNITIES

The purpose of this workgroup is to **collect and connect volunteering opportunities with potential volunteers**. The focus is on opportunities that support youth by helping at events or with organizations that serve youth. It is also to identify opportunities for youth to volunteer at. It is important for participants to gather all relevant details regarding the volunteer opportunity before promoting it.
